

PRI Pro®

by

DEVILBISS
AUTOMOTIVE REFINISHING

- Incredibly fast application rates with all types of primers, fillers and surfacers, including the latest generation waterbornes.
- Featuring the latest ergonomic GTi Pro forged aluminium gun body, for that legendary Devilbiss fit and feel.
- Large, perfectly formed spray patterns from the advanced technology P1 Trans-Tech air cap.
- A choice of five fluid tips ensure superb atomisation whether it's a low viscosity wash etch primer or an ultra high solids polyester spray putty.

*Perfection in professional priming using
leading edge i-system Pro spray gun technology*

DEVILBISS
i-system

It's prime time...

Professional automotive refinishers using GTi Pro are achieving the highest quality results with the latest generation topcoats.

Now, the same extraordinary atomisation performance and material distribution is available for primers through the PRi Pro, the ultimate in professional gravity feed primer guns.

The same cutting edge computer aided design that developed the Pro Base and Clear air caps was used to develop the P1, an air cap designed to work in harmony with the purpose designed PRi fluid tips to provide large, superbly shaped fan patterns for ultimate application speed and an unparalleled foundation finish.

In true i-system Pro style, the precision engineered PRi Pro features the new spool design air valve, for the smoothest transition from air flow to fluid flow on the market and unrivalled control through the new contoured trigger.

The durable drop forged aluminium gun body is anodised green for extra protection and is immediately recognisable as a primer gun.

The prime numbers

SPECIFICATION

Air Inlet Pressure	2.0 bar (29psi)
Air Consumption	300 l/min (10.6 cfm)
Air Inlet Thread	1/4" Universal
Cup Capacity	560 mls
Weight (gun & cup)	760 gms
Air Cap & Ring	Plated Brass
Fluid Tip	Stainless Steel
Fluid Needle	Stainless Steel

PRi Pro PERFORMANCE

Air cap	Fluid tip	Fluid flow gm/min	Pattern length mm
P1	No 16	300L.min @ 2 bar	290-310

PRi SPRAY GUN KITS

Part No	Description
PRiPRO-P1P-14	Gravity Gun & Cup – P1 Air Cap & 1.4 mm Fluid Tip
PRiPRO-P1P-16	Gravity Gun & Cup – P1 Air Cap & 1.6 mm Fluid Tip
PRiPRO-P1P-18	Gravity Gun & Cup – P1 Air Cap & 1.8 mm Fluid Tip
PRiPRO-P1P-20	Gravity Gun & Cup – P1 Air Cap & 2.0 mm Fluid Tip
PRiPRO-P1P-25	Gravity Gun & Cup – P1 Air Cap & 2.5 mm Fluid Tip

Kit includes PRi PRO Gravity Gun, cup, paint filter, brush and multi-fit spanner
